Meaningful Use Attestation

Updated 05/21/2015

The current status of Meaningful Use Public Health measures support by County of Marin, Public Health Division is:

- Immunization Information Systems (IIS)- SUPPORTED
- Electronic Laboratory Reporting (ELR)- SUPPORTED
- Syndromic Surveillance – NOT SUPPORTED

Immunization Data

Register at the CDPH HIE Gateway <http://hie.cdph.ca.gov/> and receive reporting instructions. If you are already registered at the CAIR Immunization Messaging Portal and you don't plan to submit other types of public health data, you do not need to re-register at the CDPH Gateway.

The CDPH HIE Gateway/IZ Portal offers a simple automated interface for registering for electronic immunization data exchange and for submitting test and production HL7 messages

Electronic Laboratory Reporting Data

Register with the CDPH HIE Gateway. The Portal will then instruct you on how to submit data to CalREDIE.

Syndromic Surveillance (SNS)

Marin County does not accept HL7 Syndromic Surveillance messages for meaningful use at the current time.
