

COUNTY OF MARIN HIV/AIDS RYAN WHITE SERVICES

The Ryan White Treatment Extension Act is federal legislation that addresses the unmet health needs of persons living with HIV (PLWH).

The Ryan White Act is intended to help communities and states increase the availability of primary health care and support services.

The priority is to ensure that clients ultimately receive primary care, which includes maintenance or initiation of treatment and adherence to medication regimens, leading to improved health outcomes.

These services are intended for low-income, underinsured, and uninsured persons living with HIV.

They are funds of “last resort,” meaning that all other funding sources for a service must be exhausted before using Ryan White funds for the service.

ELIGIBILITY FOR RYAN WHITE SERVICES

The first time you go to receive Ryan White services, you will need to bring proof of identification, proof of residency, proof of HIV diagnosis, and proof of meeting low-income requirements. It is a federal requirement that all consumers provide proofs of eligibility twice a year.

Ryan White services and medications are free for those with an income under \$62,450 (500% FPL), regardless of immigration status.
