

# ***SB 420 Medical Marijuana Identification Card Program***

## ***Frequently Asked Questions - Marin County***

### ***Background***

In 1996, California voters passed Proposition 215, also known as the Compassionate Use Act. The Act made the medical use of marijuana legal in California. However, it did not provide an effective way for law enforcement to properly identify patients who were legally protected by the Act.

The intent of Senate Bill (SB) 420 was to assist law enforcement in identifying Californians who were protected by the Act and to provide patients and their caregivers with a form of identification that would protect them against wrongful arrest and prosecution.

SB 420 also required the California Department of Health Services (CDHS) to establish and maintain a statewide medical marijuana identification card and registry program for qualified patients and their caregivers. As a result, the Medical Marijuana Program (MMP) was established by the CDHS in 2004. The MMP allows qualified patients to apply for and receive Medical Marijuana Identification Cards (MMIC) for themselves and their primary caregiver through their county of residence.

***Participation in the MMIC program is optional. Those persons choosing not to take advantage of the MMIC program may suffer inconvenience but will not be denied the defense provided by Proposition 215.***

### ***Frequently Asked Questions***

#### ***Why should I apply for an MMIC?***

Any person in possession of a valid MMIC shall NOT be subject to arrest for possession, transportation, delivery, or cultivation of medical marijuana in the amount allowed by SB 420 (unless there is reasonable cause to believe that the MMIC is false or falsified, the card was obtained by fraud, or the person is otherwise in violation of SB 420).

#### ***How much processed marijuana can I have in my possession?***

SB 420 allows eight (8) ounces of dried mature processed flowers of the female cannabis plant AND no more than six (6) mature or twelve (12) immature plants per qualified patient. Counties and cities are authorized to establish higher (but not lower) limits if they wish. *Please contact the Marin County Sheriff's Office and District Attorney for current enforcement information.*

#### ***What if I exceed that limit?***

Patients that exceed the limits risk being arrested and having to defend themselves in court. Despite the protections of Prop 215 and SB 420, patients may still be arrested if law enforcement suspects that they are outside the law; for example, by being involved in illegal sales or distribution or growing plants with excessive yields. *Please contact the Marin County Sheriff's Office and District Attorney for current enforcement information.*

#### ***Do I have to be a Marin County resident in order to receive an MMIC?***

No, any California resident that is a qualified patient can apply for an MMIC; ***however, you must apply for your MMIC in the county where you reside.*** Proof of residency is required.

***Is a Medical Marijuana recommendation considered a prescription?***
