

Parameters for Innovation Planning Committee

✦ The Innovation Planning Committee will make recommendations for potential Innovative projects as opposed to advocate for a specific agency to do the work

✦ We want to stay away from age specific groups and look for projects that cut across age groups

✦ Innovation will only fund a few projects, probably no more than 2-3

✦ We need to be aware of the financial impact of the Innovative project on the cost of services to current system. In other words, is this going to be a cost savings or is it going to cost us more in the long run?

✦ The County does not have a specific plan; we are excited to hear your thoughts. CMHS staff will be invited to contribute ideas to the planning process

✦ We ask that each of you try to show up for every group and have consistent attendance

✦ There will only be 3 meetings in this planning process
