Mental Health Services Act (Prop 63): Update, Outcomes Review and Next Steps

Marin County Mental Health and Substance Use Services invites consumers, family members, county staff, service providers, policy makers, and interested members of the public to learn about and discuss:

- What is the Mental Health Services Act (MHSA)
- What services/programs has MHSA funded
- Who has been served by MHSA
- What has been the impact of MHSA
- Where is MHSA going next

In November 2004 California voters approved Proposition 63, the Mental Health Services Act, intended to expand and transform community mental health services throughout California. MHSA raises additional taxes for the State, which are then allocated to county mental health programs. The greatest promise of MHSA is in its visions of outreach and engagement to the entire community, a philosophy of recovery and wellness, and a belief in the strength and resiliency of each person.

On August 20th we will provide an overview of MHSA, the programs that have been implemented locally and the achievements of these programs. Two primary goals have been to serve un/underserved communities and to achieve measurable impacts. After the presentation there will be significant time for questions and feedback. We hope you will join us in this opportunity to reflect on what we, as a community, have accomplished and how we can continue to improve.

All County public meetings are conducted in accessible locations. If you require accommodations to participate in this meeting, these may be requested by calling: (415) 473-3030 (Voice) or (415) 473-3344 (TTY) kclarke@marincounty.org, at least 72 hours in advance. Copies of documents used in this meeting are available in accessible formats upon written request.
