

New HMIS Enhancements

Update/Feature	Location	Description
Zip Code Look Up	Program Open Screen/"Last Zip Code" field	Helpful hyperlink to USPS site that will allow user to look up zip if only city and state is known.
Support Site Request	Home Page	Allows administrators to submit technical requests or issues directly to Bell Data. Not accessible to non-administrator level users.
Compatible with Firefox and Safari web browsers	Applies to overall system	HMIS/CSN can now be accessed by Mac users.
Income Copy to Exit	Income at Entry Screen	You can now copy the income at entry to the exit page if there is no change in income by pressing the button at the bottom of the page.
Auto exit all h/hold members when primary client is exited	Program Entry	Household members will be automatically "exited" when primary client is status is "exited."
Combining program entry and program open screens (expected change)	Client intake - Program Entry and Program Open	Program entry and program open screens will be combined streamline data entry.
"I" Information button (expected change)	At the top of every page.	The "I" button will give you explanations of how to complete the screen. This is useful for new users or if you have forgotten the place holders such as 000-00-0000 for SS#.
