

Overview of Treatment Admissions Following Implementation of the Affordable Care Act – June 2014

- ▶ Overall, there is a 124% increase in clients reporting being Medi-Cal beneficiaries at admission to substance use treatment/detoxification services following implementation of the Affordable Care Act (ACA)
 - ▶ In the six months prior to ACA, there were 171 admissions of clients reporting being Medi-Cal beneficiaries
 - ▶ In the six months following ACA, there were 382 admissions of clients reporting being Medi-Cal beneficiaries
- ▶ It is expected that the number of Medi-Cal beneficiaries in substance use treatment services is even higher than the reported admission data as Providers have been successfully linking uninsured clients with Eligibility and assisting them with obtaining Medi-Cal
