Purpose and Philosophy
It is the policy of the Marin County, Department of Health and Human Services to provide guidance and recommendations for the effective creation and operation of Sober Living Environments (“SLE”) in Marin County, California. The SLE is a safe, clean, sober, residential environment that promotes individual recovery through positive peer group interactions among house members and staff. Sober living housing is affordable, alcohol and drug free and allows the house members or residents to continue to develop their individual recovery plans and to become self supporting. In doing so, the SLE must co-exist in a respectful, lawful, non-threatening manner within residential communities in Marin County. These guidelines are a minimum standard to which Marin County Department of Health and Human Services will provide oversight and quality assurance through monthly reporting, semi-annual site visits and audits with contractual SLE services.

Marin County Department of Health & Human Services, Division of Mental Health and Substance Use Services would like to thank the Marin Recovery Project (MRP) for the amount of time, research and dedication they provided in developing these Guidelines for Marin County. The MRP consists of a group of self-identified peer leaders in our community whose major goals include: (1) Changing public perceptions of recovery; (2) Promoting effective public policy, and; (3)Demonstrating that recovery is working for millions of Americans.
