MHSA and BHRS UPDATES

- MHSA Three Year Planning: Reviewed current recommendations for what to include in the Three Year Plan. The proposed Plan should be posted early June. There is a 30 day public comment period, then a public hearing. Information on giving feedback will be provided with the posted Plan. The Plan is not final until approved by the Board of Supervisors.

FY2017-18 Contracts

Continuing programs receive and automatic extension of their existing budget on July 1. Providers should submit a new FY17-18 budget as soon as possible so it can be approved and a new Invoice Template can be issued. This will require each program to know what their FY17-18 allocation is. Kristen get initial figures released as soon as possible – but final allocation is not set until BOS approves the Plan.

DATA COLLECTION

- Matrix: Reviewed matrix of required data depending on type of program.
- Demographics: The State expects demographics on anyone receiving services under PEI. Each program needs to consider when it is appropriate to collect that data (even in one time workshops) and when it is not (people who come by a tabling event) – and document why the data was not collected in certain venues. (Early Intervention Programs use NEW version as of 7/1/17)
- Outreach Event data: Types of people receiving education about signs/symptoms/ services.
- Referrals to BHRS: Form updated so you can note if referred to a program in BHRS, not Access.
- Satisfaction Survey

BEACON

A couple of providers have had better communication with Beacon. There seem to be improvements under-way. Canal Alliance will check if they can share the contact info of the person they are in touch with.

Annual Reports – due August 15
