## Guidance Regarding

# Clients' Questions Relating to Immigration Status

August 2018

### **Q: Are there changes with local Marin County Health and Human Services programs?**

**A:** No. HHS remains committed to serving all those in need. Care is available at Health and Human Services offices regardless of your immigration status.

### **Q: Will information I provide in applying for benefits shared with ICE?**

**A:** HHS will continue to follow existing confidentiality policies. The department will also continue to monitor changes at the federal and local level and update clients accordingly.

### **Q: Will applying for benefits or healthcare affect my immigration status?**

**A:** Circumstances vary and may change. Therefore, HHS cannot answer that question specifically. For specific information and resources, please visit the Community Resource guide at:

<https://www.marinhhs.org/community-resource-guide>.

Here, you can find information ranging from legal help to counseling services.

### **Q: How can I get more information on enrollment and coverage?**

**A:** Call HHS Public Assistance at 877.410.8817 for more information.
