## I. BACKGROUND

### A. Department of Health and Human Services Strategic Plan to Achieve Health and Wellness Equity

In 2018, Marin County Health and Human Services (HHS) launched a strategic plan to achieve health and wellness equity in Marin. While income, education, and other socioeconomic and cultural factors play key roles in shaping outcomes in our communities, the direct effects of racism – whether covert or overt, intentional or unintentional, systemic or individual – must be acknowledged and addressed to achieve equity. Research demonstrates independent associations of racial discrimination on driving inequities, including downward mobility.

Central to our efforts on leading with race to achieve equity is treating clients respectfully and with cultural humility. HHS commits to systematically expanding this work throughout the Department and to supporting contracted service providers to do the same. By deepening our understanding of how individuals experience accessing and receiving services, and understanding how services result in outcomes by race and ethnicity, HHS and contracted service providers can identify opportunities to improve service delivery.

HHS recognizes that leading with race to achieve health and wellness equity requires working with our partners in new ways. These collaborations will amplify efforts on leading with race to advance health and wellness equity by aligning and coordinating work, accomplishing more than HHS or any other single organization could do alone.

To achieve these goals, we must work differently across sectors. New and non-traditional partnerships can help remove barriers to opportunity and direct resources toward evidence-based efforts that address historic inequities.

This RFP seeks bids that demonstrate efforts to promote racial equity in providing the proposed services. To learn more about the HHS Strategic Plan to Achieve Health and Wellness Equity, visit: [MarinHHS.org/Equity-Plan](https://MarinHHS.org/Equity-Plan)

### B. Mental Health Services Act (MHSA)

In November 2004, California voters approved Proposition 63, the Mental Health Services Act (MHSA), intended to expand and transform county mental health services throughout California. While the proposition passed with 54% of the vote statewide, Marin County voted 63% in favor. The MHSA raises additional taxes for the State, which are then allocated to county mental health divisions.

The MHSA has five components: Community Services and Supports, Prevention & Early Intervention, Innovation, Capital Facilities & Technology Needs, and Workforce Education & Training. Marin's MHSA FY20/21-22/23 Three-Year Program and Expenditure Plan can be viewed on the County website [www.marinhhs.org/mhsa](http://www.marinhhs.org/mhsa).

Guiding MHSA Principles:

- Community Collaboration to develop a shared vision for services
- Cultural Competence to effectively serve underserved communities
- Individual/Family Driven Programs that empower participants in their recovery
- Wellness Focus that includes concepts of resilience and recovery
- Integrated Service Experience that places mental health services in locations where participants obtain other critical services
- Outcomes-based Design that demonstrates the effectiveness of the services

This funding opportunity is being made available using MHSA Workforce Education & Training Funding.

## C. Division of Behavioral Health and Recovery Services Commitment to Equity

Marin County Behavioral Health and Recovery Services (BHRS) continues to strive to build a culturally and linguistically appropriate and affirmative system in support of the behavioral health and recovery needs of Marin county's increasingly diverse population. BHRS is a division of the HHS. BHRS offers a broad range of services, including prevention and early intervention, suicide prevention, and crisis services, to all residents of Marin County. BHRS also provides outpatient, residential, and hospital care addressing specialty mental health and substance use service needs of Marin Medi-Cal beneficiaries and uninsured residents. The priorities and goals of BHRS strive to establish a comprehensive, integrated, and recovery-oriented continuum of evidence-based services that are responsive to community needs, engage multiple systems and stakeholders, encourage community participation, promote system integration, and embrace a comprehensive approach to service delivery.

BHRS recognizes that, to be truly equitable, there needs to be focus placed on understanding intersectionality. When strategizing how to imbue equity throughout the County of Marin, we must consider all impacted identities and how each of those identities exist on a spectrum of privilege and oppression. BHRS is committed to not only passive inclusivity and representation of diverse identities within the BHRS's workforce but fostering a workplace environment where active engagement from and with diverse identities is priority. To learn more about BHRS' equity work and goals, visit: [BHRS Cultural Competency Plan](#).

## D. Additional Background

BHRS staff have been in attendance to HHS hosted Safe Space Brave Space events, where staff have an opportunity to engage in dialogue around intersectional issues. Through these events and in ongoing assessment of our system, BHRS staff of color were sharing experiences of racism and/or racial discrimination from their clients. In a follow up presentation to leadership around this issue, supervisors named that they would feel more supported in addressing issues of race and racism that arise within clinical and/or supervisory relationships and teams if they had more trainings and consultative spaces to seek support, guidance, and anti-oppressive practice skill building. In noticing that our supervisors would benefit from an ongoing supportive and consultative space, BHRS also aims to extend this opportunity to our direct care staff, managers, and leadership. This project is a part of an ongoing effort of BHRS' to shift toward trauma-informed, anti-oppressive and anti-racist, and cultural humility principles and practices.

Only one proposal may be submitted from a single bidder. Collaborative proposals that show a strong inter-agency partnership to develop a robust program that does not lead to duplicative or fragmented services are highly desirable.

When preparing a proposal in response to this request, please:

- Carefully read the entire RFP document before you start, and make sure that all procedures and requirements of the RFP are accurately followed and addressed.
- Review answers to questions posted by bidders (Bidders' Conference and/or questions and answers from website), as noticed in this document.
- Carefully review the entire proposal prior to submittal and use the checklist provided in this RFP to make sure everything has been completed as instructed.
- Submit a complete proposal by the required deadline.

## II. PROJECT DESCRIPTION AND EXPECTATIONS

### A. Project Period

The contract award will be made on a competitive bid basis. The anticipated contract period is 12 months from July 01, 2021 to June 30, 2022. This contract may be extended up to 4 additional years before a new procurement process if there is available funding, demonstrated need, and/or progress on outcome goals.

### B. Available Funding

There is a maximum of \$14,000 in MHSA Workforce Education and Training funding under this RFP for the 12-month initial contract period. This estimate is contingent upon the anticipated funding being available. The County reserves the right to:

- Increase or decrease the estimated award and contract amount;
- Fund the proposed project in whole or in part; and
- Terminate or extend the project(s) or contract(s) based on funding availability.

### C. Target Population

The target population for this project is BHRS employees, including supervisors, direct service workers, and management and leadership who are seeking consultation around how to address racism within their teams and/or in their relationships with clients/consumers.

### D. Project Description

This project will involve facilitating trauma-informed groups and consultative spaces on how to respond to racism in both working relationships and relationships with consumers for BHRS staff, including groups for BHRS supervisors, groups for BHRS management and leadership, groups for BHRS direct-care staff, and any requested/needed one-on-one support. There is also an additional need for BHRS supervisors to receive consultatory support for general supervisory issues.

Ideally, the awardee will provide 3 monthly groups (36 total) for 1.5 – 2 hours each and 1 quarterly group (4 total) for 1.5 – 2 hours for general supervisory issues. In the event that BHRS staff wish to seek out 1:1 consultation with the awardee, the awardee's hourly rate and availability will be referenced and taken into consideration before approval of individual supervision/consultation.

The facilitator of these spaces should have extensive experience in the following:

- Working with communities and employees of color;
- Facilitating groups comprised of diverse participants and creating safe, brave, inclusive, and engaged spaces for participants;
- Providing strategies for responding to racism in the workplace or in client relationships;
- Providing both victim-centered and clinical conceptualizations when racism shows up in relationships with clients and consumers of behavioral health and recovery services;
- Modeling anti-oppressive practice, allyship, and confronting racism; and
- Have lived experience with racial inequities and complexities related to racial justice work.

## E. Intended Outcomes, Goals, or Objectives:

The intended outcomes include:

- Increased humble confidence in managing racism and/or racial discrimination within teams and/or relationships with clients/consumers;
- Increased participant experiences of support, connection, and belonging and knowing where to get support within our system;
- Increased opportunities to build resilience and cultural humility by engaging in challenging and uncomfortable conversations about race and racism;
- Increased participant understanding of racism and racial discrimination as a systemic issue;
- Increased knowledge toward a common language within our system, (i.e. “anti-oppressive practice,” “anti-racism,” “privilege,” “oppression,” “intersectionality,” “cultural humility,” “microaggressions,” “BIPOC,” etc.);
- Increased participant ability to identify examples of racial prejudice and discrimination directed toward staff (both macro and micro-aggressions);
- Decreased tendency for racial discrimination to be identified as symptomatic of a mental health issue or a “bad fit” between clinician and client;
- Increased safety and respect for cultural differences within BHRS culture;
- Decreased norms to “brush off” or “not personalize” incidents that create and perpetuate harm; and
- Increased response rate in addressing racism and racial discrimination when it occurs.

The awardee will be asked to measure and analyze these outcomes using standardized instruments (i.e. surveys) and include a race/ethnicity question in order to be able to disaggregate the responses by race of respondent to make any race-related disparities in outcomes and satisfaction visible. The awardee will be asked to report the outcomes to BHRS in this disaggregated fashion and provide a work plan in their Annual Report to address any disparities uncovered.

The awardee will be asked to provide a final report to document what was done throughout the project year and will include quantitative and qualitative data to demonstrate as such. The awardee will utilize this report to help determine if this program and consultation offering was impactful to the staff of BHRS.

## F. Reporting and Performance Requirements

The bidder who is awarded the contract will collect data per group and/or consultative session on the participants’ race/ethnicity and role within the BHRS system.

## VII. APPLICATION REVIEW AND SELECTION PROCESS

### A. Application Review and Selection

HHS staff will conduct an initial technical review to ensure that the format requirements outlined in this RFP have been fulfilled. If any of the material format or substantive requirements is missing or incorrect, the application may be disqualified.

All applications that pass the initial technical review will be submitted to an Application review committee that shall evaluate and rank the applications. The committee will be comprised of parties knowledgeable about the services sought by this RFP from diverse backgrounds, **including persons with lived experience from the target population of this RFP**, representatives from other county departments, representatives from local advisory boards or community based organizations, and/or any other individuals that HHS deems capable and appropriate for the selection of potential providers. The committee shall not include any potential contractors, and no committee member may apply or assist others in applying for this contract.

The purpose of the evaluation is to determine which applicants demonstrate the skills, expertise and experience to successfully perform the tasks specified in the RFP. Each committee member will read and score each application using a standardized scoring instrument. The scoring instrument will reflect the requirements of the RFP. A copy of the scoring instrument that will be used can be found in Attachment C. The County reserves the right to seek clarifying or additional information from applicants, potentially including site visits or agency interviews.

The committee will make an award recommendation to the Director of BHRS or the Director of Health and Human Services, or designee, who will make the final recommendation to the Marin County Board of Supervisors or County Administrator.

Prior to making an award, the County may choose to conduct interviews with applicants. The purpose of the interviews would be to ask follow-up questions that may arise from the review committee and collect any additional information not gleaned from the Applications. The County may also request additional information necessary to determine the applicant's financial stability, ability to perform on schedule or willingness to incorporate additional features in the application, and any other relevant information necessary to make the award.

Once a decision is made, a Notice of Intent to Award will be emailed to all applicants evaluated by the committee.

## B. Post Award

Once the Notice of Intent to Award has been issued, the provider selected will be contacted to execute the County's Standard Professional Services Contract. At that time, the selected provider and the County may discuss adjustments to the budget and the scope of work. **No other provisions of the County's Standard Professional Services Contract will be negotiated.** Refer to Attachment D for a copy of the County's Standard Professional Services Contract.

The applicant grantee awarded a contract under this bid process will be required to adhere to the reporting requirements set forth by HHS, as well as to provide any additional data needed to satisfy other County, state, or federal reporting requirements.

For the duration of the contract period, contract renewals are contingent upon the demonstration of progress in achieving measurable results to the County's satisfaction and compliance with all contract requirements, as well as the continued availability of contract project funding.

Award of a contract under this process does not preclude the County from conducting another RFP process for these services at a future date.
