I. BACKGROUND

A. Department of Health and Human Services Strategic Plan to Achieve Health and Wellness Equity

In 2018, Marin County Health and Human Services (HHS) launched a strategic plan to achieve health and wellness equity in Marin. While income, education, and other socioeconomic and cultural factors play key roles in shaping outcomes in our communities, the direct effects of racism – whether covert or overt, intentional or unintentional, systemic or individual – must be acknowledged and addressed to achieve equity. Research demonstrates independent associations of racial discrimination on driving inequities, including downward mobility.

Central to our efforts on leading with race to achieve equity is treating clients respectfully and with cultural humility. HHS commits to systematically expanding this work throughout the Department and to supporting contracted service providers to do the same. By deepening our understanding of how individuals experience accessing and receiving services, and understanding how services result in outcomes by race and ethnicity, HHS and contracted service providers can identify opportunities to improve service delivery.

HHS recognizes that leading with race to achieve health and wellness equity requires working with our partners in new ways. These collaborations will amplify efforts on leading with race to advance health and wellness equity by aligning and coordinating work, accomplishing more than HHS or any other single organization could do alone.

To achieve these goals, we must work differently across sectors. New and non-traditional partnerships can help remove barriers to opportunity and direct resources toward evidence-based efforts that address historic inequities.

This RFP seeks bids that demonstrate efforts to promote racial equity in providing the proposed services. To learn more about the HHS Strategic Plan to Achieve Health and Wellness Equity, visit: MarinHHS.org/Equity-Plan

B. RFP Overview

HHS Division of Whole Person Care is seeking **additional** proposals to increase our established pool of contractors to provide intensive housing-based case management (HBCM), which may be paired with Section 811 vouchers from Marin Housing Authority to create new permanent supportive housing. The vendor pool currently includes Catholic Charities, Community Action Marin, Marin Community Clinics, Ritter Center, and St. Vincent de Paul Society of Marin. These vendors need not apply again to remain in the HBCM pool. Case managers will ensure clients are connected to appropriate services, including healthcare services and mainstream benefits as appropriate. The care plans will focus on housing attainment, increased engagement with services and health care, and decreased engagement with emergency services, and other social determinants of health. The contractor will make the plan available to a multi-disciplinary care team and will actively work on progress toward the identified goals. See Attachment C for a preliminary draft of case manager duties.

Only one proposal may be submitted from a single bidder. Collaborative proposals that show a strong inter-agency partnership to develop a robust program that does not lead to duplicative or fragmented services are highly desirable.

When preparing a proposal in response to this request, please:

- Carefully read the entire RFP document before you start, and make sure that all procedures and requirements of the RFP are accurately followed and addressed.
- Review answers to questions posted by bidders (Bidders' Conference and/or questions and answers from website), as noticed in this document.
- Carefully review the entire proposal prior to submittal and use the checklist provided in this RFP to make

- sure everything has been completed as instructed.
- Submit a complete proposal by the required deadline.

C. Underlying Philosophies

Contractors must implement a housing first (see Attachment B), harm reduction approach to service delivery.

II. PROJECT DESCRIPTION AND EXPECTATIONS

A. Project Period

This RFP is to increase the Division of Whole Person Care's list of approved vendors from which HHS may contract for housing-based case management. Project period will depend on the funding source and project requirements but will generally be no less than 1 year and no more than 5 years before a new procurement process is required.

B. Available Funding

This RFP will be used for future housing-based case management awards. As we secure new funding, we will utilize the pool of successful bidders selected from this RFP.

There is currently no available funding as we are simply seeking to add to our pool of housing-based case management vendors. Generally, future contracts will include funds for one case manager with a caseload of 17, billed at a rate of \$595 per member per month (\$121,380/year).

C. Target Population

The target population for this funding is Marin County residents who are chronically homeless, defined as individuals with disabilities and families in which one adult or child has a disability, including unaccompanied homeless youth, that at intake are:

- (1) experiencing chronic homelessness as defined in 24 CFR 578.3;
- (2) residing in a place not meant for human habitation, emergency shelter, or safe haven; but the individuals or families experiencing chronic homelessness as defined at 24 CFR 578.3 had been admitted and enrolled in a permanent housing project within the last year and were unable to maintain a housing placement;
- (3) residing in an institutional setting for more than 90 days or residing in transitional housing and who were experiencing chronic homelessness as defined at 24 CFR 578.3 prior to entering the project;
- (4) residing and has resided in a place not meant for human habitation, a safe haven, or emergency shelter for at least 12 months in the last three years, but has not done so on four separate occasions; or
- (5) receiving assistance through a Department of Veterans Affairs (VA)-funded homeless assistance program and met one of the above criteria at initial intake to the VA's homeless assistance system.

Clients will be assigned through Marin County's Coordinated Entry system.

D. Project Description

Many people with long histories of homelessness struggle with complex, multi-layered issues that interfere with their ability to attain and maintain stable housing. These factors often cause individuals to fall through the cracks between existing programs and remain on the streets. Additionally, people with many barriers often struggle to navigate community services and safety net programs on their own.

This RFP will create a pool of vendors to provide housing-based case management to individuals in Marin County. Clients will be assigned through Marin's Coordinated Entry system.

Clients will receive a standard set of assessments that will inform development of a client-centered care plan that reflects clients' goals and preferences and addresses social determinants of health. The care plans will focus on housing retention, increased engagement with services and health care, and decreased engagement with emergency services, and other social determinants of health. The contractor will make the plan available to a multi-disciplinary care team and will actively work on progress toward the identified goals. Case managers will ensure clients are connected to appropriate healthcare services, including establishment of a medical home and visits with primary care providers and other providers as indicated.

E. Intended Outcomes, Goals, or Objectives:

The protest will be forwarded, through the appropriate administrative channels, to the Director of the Marin County Department of Health and Human Services, or designee. The Department Director or designee may review the original RFP Application(s), the public notice, the Request for Application document, and the scoring instruments of the Application review committee, and any other document deemed appropriate. The Department Director or designee will provide a written response to the protest, including any action that will be taken, if applicable. The decision of the Department Director or designee shall be final.

C. Post Award

Once the Notice of Intent to Award has been issued, the provider selected will be contacted to execute the County's Standard Professional Services Contract. At that time, the selected provider and the County may discuss adjustments to the budget and the scope of work. **No other provisions of the County's Standard Professional Services Contract will be negotiated.** Refer to Attachment D for a copy of the County's Standard Professional Services Contract.

The applicant grantee awarded a contract under this bid process will be required to adhere to the reporting requirements set forth by HHS, as well as to provide any additional data needed to satisfy other County, state, or federal reporting requirements.

For the duration of the contract period, contract renewals are contingent upon the demonstration of progress in achieving measurable results to the County's satisfaction and compliance with all contract requirements, as well as the continued availability of contract project funding.

Award of a contract under this process does not preclude the County from conducting another RFP process for these services at a future date.
